**{Architecture is a wonderful expression of
the discovery process. It's like a scientist
who doesn't know the answer, but knows
the path to it. That's what drives me: the joy
of the path, the discovery."}**

Dedication

I dedicate this modest work to my
dearest parents, the first ones who
encouraged and supported me during
this long way.

Dedication

Thanks

"Praise be to GOD, lord and master of the universes".

I would like to express my thanks to a whole world of people who have made this study possible and who have contributed to its elaboration in any form.

I address myself to GOD, the almighty, to thank him for having given me the courage, the support, the patience to carry out this work.
