

Everything should be done **in the middle**; the taking or hunting of animals should never constitute games; also, only the necessary quantity should be able to be taken without any excess and at the right times.

Initially, the overall natural arrangement of the Earth was that of a Nurturing Mother who happily allowed herself to give her breast milk to newborns until they matured enough to be able to consume other more suitable foods, after weaning.

But the newborns in question (**the humans**), against all expectations, **refused the planned natural weaning** and **unhealthy continued to forcibly solicit** the precious breast milk (despite their new sharp teeth).

They even made the effort to make themselves inaccessible to all the dissuasions carried out by the Nurse (the Earth). Had they not been suggested to dominate and subjugate the planet, and multiply in disorder on its surface?

This is the unworthy and pitiful reality that human Spirits, having incredibly renounced their Celestial Homelands **in particular by abdicating their souls**, ended up generating on Earth. And they would like to stay there forever; they had chosen their **biological bodies as priorities**, their Spirits and their souls are now at the Services of dense Matter, as Sources of Life energies. But they rather called them **“occult, even divine energies or forces”** supposed to be used to live better on Earth; especially linger there!

In the same way that an organ not used for a long period begins and ends up completely atrophying, becoming deformed; **spiritual consciousnesses, souls and various etheric bodies**, being neglected and ignored for millennia by certain humanities, **had also ended up**

**withering away** until they tended towards their limits of total annihilation.<sup>9</sup>

- **It was the terrible, unsuspected and profound Fall of human Spirits into Matter!**

Why then would it be **at this advanced stage of consumption of their nuclei** that human beings (becoming simple biological dolls) can prove to themselves:

- the existence of a Life for them after death ?
  - the diversity of their etheric bodies in Matter ?
  - the Hierarchy of “deities” of Worlds of inconceivable dimensions ?
  - their purely Spiritual Origins ?
  - the Reality of the true Celestial Paradise whose intense atmosphere of Light they could not bear ? And
  - the Existence of Almighty God Still Above All Creations ?
- Who should have Sent His Son into Matter?

And we are indeed talking **about the immortal sparks of the Spiritual** who wanted to live eternally **in an imperfect and perishable world**; where they were only called to be passengers!

These beings who did not even succeed in taking care of and honoring with dignity the Beauty, the Wonders and the natural Laws of this so-called imperfect lower world.

**What other uses were they best used for? Their own follies, one might say!**

---

<sup>9</sup> It is, moreover, from this reality that results the illusion of certain "spiritualists" (in other words, the group of lost people who gropingly rediscovered the Beyond, the "occult" world) according to which; humans should create their own etheric bodies (which did not originally exist) in order to continue their evolutions in the Cosmos. Otherwise, they would simply be condemned to a permanent death.

---

**Return to the Desperate Mission of Christ, faced with the excessive spiritual immaturity of Humanities...** (I close the loop!)

It is then in full perdition, the Portals to the Heavens on the verge of being hermetically closed for all, the Cosmic Clock striking the last hours before the acceleration of the processes of decomposition of Matter...; that **Jesus Christ** had to intervene extraordinarily to reveal and honor the Providential Original Love of His Heavenly Father that no one knew in the entire Creation! It was an unprecedented event which would have been very dispensable to the Light, if the Spirits had not fallen so much and corrupted so many possibilities of evolution based in the Wise Laws governing the entire Creation.

An intervention which responded in all Justice to the sincere aspirations and prayers of several human souls innocently lost in the later Creation due to the False Principle of Lucifer, the Archangel who had dishonored Divine Love and misused the sacred Force which had been given to him to promote the evolution of Spirits in Matter.

Paradoxically, the Luciferian Principle is designated as "**false**" only in the sense **of its inexactness** by **virtue of the Laws of Divine Love** supposed to govern all the Creations of God the Father, and not in the sense **of an injustice** towards the Creatures who were its victims. These were indeed temptations to which only **the most Vain could succumb**; otherwise almost only spiritual creatures who had no pure and sincere aspiration towards conscious existence, respectful of everything that exists outside them.

The Grace of Existence had, apparently, fallen too easily to certain spiritual creatures who then seemed to benefit from it only in vain, in all superficiality, insensitivity and indifference. There was then **no Injustice** that Lucifer chose to hardly promote the evolution of such creatures not knowing what to do with

the Life offered by God. Only the Virtues of Love failed Lucifer!

And moreover, in the Ultimate Divine Judgment planned at the End of Times within Matter, God the Holy Spirit (Immanuel-Parzival) was called to systematically exercise His Merciless and Holy Sorting; **raising** worthy creatures aspiring towards the Light, **and condemning** everything else filled with darkness to damnation after the many torments of decay. It was thus, in the greatest rigors of Justice, that the Humanities were going to be judged according to their various works and aspirations. This was the Holy Law of God, which originally had its power residing in the Holy Spirit; only to invigorate and promote the Pure Aspirants to the Consciousness and the Ennoblement of their various personalities.

His Force was in no way intended to serve any bad, imperfect and impure will; and above all the creatures to be judged had been entitled to a very long period of wanderings which would have largely allowed them to evolve and mature to a minimum of perfection in the prodigious fine material ethers. Any creature remaining lost in dense Matter at the End of Time could only be the most lazy and unworthy of enjoying the Force of God; and will naturally have to suffer the terrible damnation of his personality.

You will then understand that **Lucifer** embodied, above all, a facet of the Divine Rigors of Justice. However, he should have taken into account the other Divine Dispositions including **the Love of God**, which he took in particular to be too long-suffering.

Unlike him, the Son of God **Immanuel** (embodying the Holy Will and Divine Justice) had remained well in the Tri-Unity of Action with **Jesus** (Son embodying Inessential Love) and **God the Father** Himself. **Jesus** having promptly decided to Intervene, **Immanuel-Parzival** systematically offered Him all His Support and above all He remained One with Him, in Action.

There you will see the Only Path of Resurrection and Life that Jesus Christ inevitably embodied in His incarnations in Creation subsequent to the Help of Humanities in distress. He notably revealed it so well during his time on Earth in His Word:

**“I am the Resurrection and the Life; No one comes to the Father except through Me! »**

A Holy Word which revealed the Original Truth of the Inessential part of God the Father which He represents; and which ensured from the Beginning the Unity and Attraction of All Things towards the Source of Immutable Perfection of Life, the Absolute Light of the Father.<sup>10</sup>

Notably, **without His distinct Intervention** and at the most decisive moment, the Majority of humanity in distress would be condemned to Annihilation, including the innocents who had succumbed to temptations due to lack of Vigilance.

The Wise Laws of His Father being fully manifested by Imanuel in His Creation out of the Divine; **Jesus in no way had to escape the natural mechanisms of incarnations in a specific lower world.** He could only go through the same stages of reception of successive envelopes necessary for a full living manifestation even in the dense Matter of the later Creation. He benefited **from special envelopes** provided by the Original Queen to contain his powerful Divine Irradiations.

This through the various feminine Entities fully at the Services of the Original Queen, ensuring perfectly to provide each of the appropriate receptacles from World to World. And Marie, the earthly mother of **the Blessed child** was originally prepared and sent to Earth to provide the last most suitable dense biological receptacle for the Divine Envoy. She constituted only one link in the long chain of spiritual Entities having shaped the various

---

<sup>10</sup> Truth already mentioned in the explanations in relation to the Yin and Yang forces in their Inessential states in Absolute Unity in the Light of the Heavenly Father.

receptacles for the Son of God, under the Ordinance of the Original Queen.

Indeed, Only the Original Queen is worthy of being called the **“Holy Mother of Jesus”**, and not Mary the Virgin (spiritually speaking) <sup>11</sup>. It was in reality **a distorted intuition** that led humans to take Mary for the “Mother of God”; she who was well and truly aligned with the descending Irradiations of the Original Queen. It is therefore through the lack of Knowledge of humans, through their haste and religious pretensions that they made the error of considering it thus.

It would be appropriate here to note that **Authentic Femininity** turns out to be anchored in an Entity function consciously chosen by certain feminine Spirits; It was then that Mary was able to more or less go astray, forgetting that she served above all the Original Queen. Personally she intuitively recognized that she had only provided the receptacle but, being walled in by false earthly conceptions, she could not raise her consciousness to the point of understanding the Spiritual and Divine Origins of the soul of her son Jesus.

As you already know, the omnipresent spiritual Immaturity on Earth has in no way allowed humans to recognize in time the powerful Messenger of God in Jesus of Nazareth, who came to enlighten them with His Light. Although later he was recognized but fanatically and superficially!

**“I would still have many things to say to you, but you would not understand it! »** He said with sadness to his disciples; not having, for example, been able to talk to them about **the reality of the reincarnations of souls!** Faced with the excessive spiritual immaturity of the most serious, including among the crowds!

---

<sup>11</sup> Her virginity in question is only an indication of the purity of her soul. And also, Jesus was his first child; enjoying all the purity and organic firmness characterizing a young mother.

---

It was, being misunderstood by all, that Jesus could only demand Faith and Trust in His Word while awaiting the intervention **of the Son of Man** in Imanuel, who would come later **in His Name**, considering earthly time, to complete and explain all the Knowledge essential for the establishment of the Reign of God on Earth and in all Matter.

- **The Divine promise of the Son of Man before the Last Judgment...**

The Lord Imanuel, who in the meantime was already preparing to carry out **the Judgment of the Worlds of the Subsequent Creation**, agreed to honor this new and Holy Task entrusted to him by the Inessential Love of the Father, Jesus. He was going to bring Redemption to the humanities who **seriously seek Salvation**; by establishing Reprieves equivalent to more or less **a Thousand years** (the famous Reign of a Thousand Years) , and after which the human Spirits **will themselves have to prove themselves** until the Moment of the final Holy Judgment (the True End of the Cycle of Matter and last Sorting of Souls).

And to do this, He also incarnated naturally in dense Matter, by way of Irradiation “ **Immanuel - Parzival - Son of Man** ”; also requiring careful preparations of various envelopes adapted to each descending Spheres.

Firstly, in the preparations for the Last Judgment, **Parzival** was already making wanderings in the later Creation **in order to experience for himself the base realities experienced by human spirits**; the Goal being to be able to better judge each World according to its specificities.

It was then that He received from Jesus the second Task of transmitting the more complete Divine Message, revealing step by step the **High Luminous Realities** up to the Summit of Creation where the **Holy Grail** resides in Imanuel;

which will constitute the “**Message from the Grail**”!

As I explained, the **Son of God Imanuel** remained anchored in the impassable Divine part of the immense **Grail Fort Castle**! Unable to go any further; He then needed a Worthy representation in the Pure-Spiritual part of His Creation, a taking of form revealing His Omnipotence and Perfection to the Creatures of the Human Spiritual Kind.

It was notably a taking form for His powerful Irradiation coming out of the Divine Sphere to constitute the Holy Spirit **Parzival**, otherwise His Son intended for Human Spirits. This is to point out that in reality when Jesus spoke of the Son of Man, He only meant this “**Son of Imanuel destined for Humans**” from the Summit of Creation.

**The Parzival of the Holy Grail** and the **Son of Man** are therefore One; the notion of **Son** meaning only “**that which derives from**” or “**descends from**” the Irradiation of Imanuel-Parzival, and who will be designated in all the lower Spheres as “Son of God destined to guide the Humanities”. If Jesus only wanted to directly designate Imanuel, he should never have mentioned the notion of the Son of Man. It is therefore clear that He clearly distinguished the **Divine** where Imanuel resides, from the **Pure-Spiritual** at the Summit of the entire Creation generated outside the Divine Sphere and where the Core of the Son of Man resided.

As the **Legend of the Holy Grail** indicates, the Son of Man in Parzival did indeed travel through **all the Cosmic Parts of the later Creation**; to initiate the progressive Restoration of the Order of the Holy Grail before the Final Judgment.

And He brings there, with His Troop of **144,000 Called Ones and Knights of the Grail**, the Completion of the Divine Mission of the Son of God Jesus. This, in the face of the fallen Humanities

which had **diverted the processes of evolution downwards**<sup>12</sup>; reinforcing the imperfections and demons born from the Regions of Darkness and Damnation.

- **The persistent myopia of humans!**

Just as in the case of the Son of God Jesus, all the corrupt Spirits hardly saw the interest in the Coming of the Son of Man; again it did not succeed in the way that human imaginations would have it. They prefer many other **pseudo-gods or angels of unconditional love** of Matter; notably the servants of Lucifer disguised as saviors bringing everything on a platter to the wonderful humans that "God" would greatly need.

The humanities have created their own intellectual realities and persevere on the Luciferian paths which only divert the Life Force towards the strengthening of inferior, one-sided, dark ways of life. They would like some kind of eternal lives in Matter (the lower kind of all Creation); which is intrinsically against the very Nature of Matter and especially against its original goal of vivification.

In truth, very few human Spirits manage to return to the true Paradise in proximity to the Pure-Spiritual and the Divine; the majority got lost in the realities of the lower worlds which are no less rich in life experiences, however imperfect, ephemeral, and which only end up bringing stagnation and retrogrades to any Being whatsoever.

**I'll stop there with the answers!**

Basically, I couldn't talk about "**deities**" without mentioning the two Sons of God **Jesus and Imanuel**, as well as the most Pure, Powerful and Perfect **Spirits truly created in the Image of God**; notably **Parzival** the Holy Spirit, the **Primordials** and **Created -Originals** who created all the wonderful **Entities also omnipotent** in their governing genres **all the essential elements**

---

<sup>12</sup> Instead of leading them to the Luminous Heights.

constituting the lower spheres below the Spiritual Kingdom. The so-called “Ancient Gods” or “Mythological Gods” are none other than the most Powerful of these **Auric Entities** from which the myriads of Beings of Nature descended.

And, in reality, **Olympus and Walhalla** are only One and immense **lower Essential Kingdom** (or Auric Kingdom); only the various peoples, depending on their different capacities for perception of Reality combined with their natural diversity of vocabularies, gave the impression that they were different kingdoms governed by several gods (sometimes acting against each other) <sup>13</sup>. It would also be understandable that they could have taken several parts or worlds of the immeasurable **Kingdom of Olympus** as being distinct and under other divergent authorities of **Zeus, the King of all**.

When the Greeks designated the Royal Couple of Olympus by the names **Zeus and Hera**, the Germans and other Nordic peoples designated them **Odin and Freya** or even **Wotan and Frigga**. The Romans, Egyptians and Sumerians named respectively "**Jupiter and Juno**", "**Osiris and Isis**" and "**An and Inana**"; all these names having practically the same meanings. For examples: Wotan means “**Bearer of Light in the Universe**”, Jupiter “**He who brings Light**”, and Osiris means “**Light of Heaven**”. It goes without saying that the meanings of these Names clearly transmit the same type of activity of the Bearer of the Force which allowed the Vitalization of the later Creation including the 7 Super- Universes of Matter; this through Auric **Mercury-Zeus link**.

---

<sup>13</sup> It would only be their complementary roles that could have given the impression that some were deconstructing the works of the other forces of Nature. The fact that the Undines, mastering the Water element, can extinguish the fires generated and governed by the Salamanders; does not transform these two kinds of Entities into natural Enemies. They complement each other according to a healthy Ordinance; a chain of activities essential for balance.

Obviously these names could, more or less legitimately, be used on a small scale by certain incarnations of human Spirits who would be under the guidance of powerful essential Beings. But in most cases, **it was through desires of usurpation arising from human pretensions;** or in other cases, **superficial and presumptuous usages .**

And quite simply, Mythology **was** originally a faithful account of the activity of large and small essential beings in the material worlds. Also, many Tales and Legends were **means of pictorial transmission** of Wisdom and various sincere Warnings coming from Beings of Nature or even from higher essential Beings.

It was later during the retrogrades of humans that terrible confusions mixed in to distort everything. Worse, certain Luciferian Spirits **had conveyed lots of lies to sully, tarnish and destroy the wonderful reputations of essential Beings.** I could in particular take the example of the false legends according to which “Zeus got closer to earthly women”; from which would arise many so-called **"sons of Zeus"** who were only Luciferian usurpers wanting to use the supremacy of Zeus. There is no room here to reveal all the chaos that Lucifer's vain servants have wrought throughout all later Creation.

I hope that the next questions will allow me to fill in other gaps about the Higher Realities of Existence.
